# Methodology and System

Sentinel|9 is more than an education provider with ready-to-use subjects. We offer a system for education that can be used to deliver courses in any discipline. Our approach provides the technology for education providers to adapt any material to a learning environment.

Sentinel|9's teaching methodology allows educators to reduce the cost of producing academic subjects and courses. We offer:

- Comprehensive manual that incorporates:
  - **Academic compilation**
  - **Online productions**
  - **Ancillaries creation**
  - **Management control**
- All-inclusive library with:
  - **Pre-developed, template-based documentation**
  - **1,000+ supporting files.**

## Sentinel|9 can:

✓ Create and compile subjects in various disciplines via our education methodology that ensures consistent, high-quality production

OR

✓ Provide institutions with access and training for the Sentinel|9 system, enabling you to create your own highly engaging content

# Innovation in Education

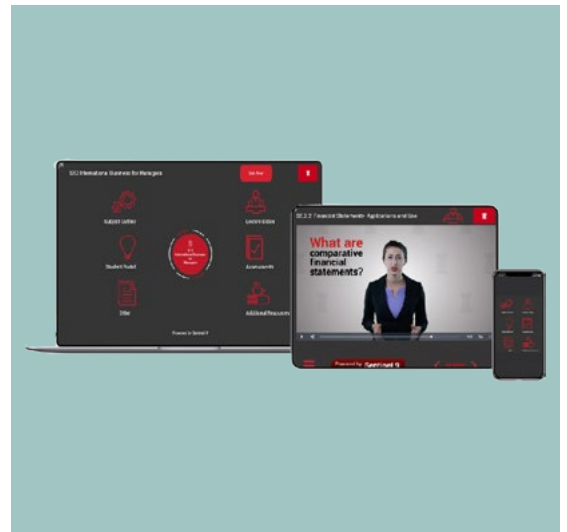

## Intellectually Captivating Content

### Sentinel|9's library includes:

- 600+ relevant lecture videos
- 250+ assessments and resources
- 1,500+ pages of internally developed academic material

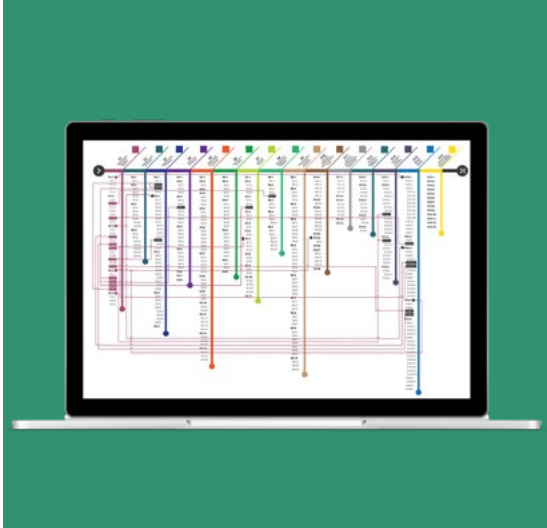

## Proprietary Delivery Platform

- Content provided through an innovative platform called Coherent Course Technology (CCT)
- Scalable and accessible on all platforms (desktop, laptop, tablet and smartphone)

## Comprehensive Study Guide

- Hints for effective study
- Information on key learning strategies including how to structure study, referencing, assignments and more

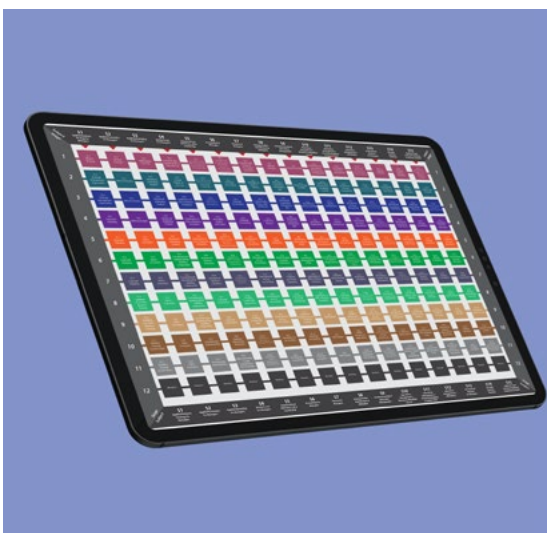

## Intersubject Linkages Linkages Map:

- Shows content relationships between different subjects
- Shows academic topics that correlate with topics found in the Sentinel|9 subjects

## Subject Visualisations Tools

### Subject Staging:

- Visually represents the different stages of each subject
- Supports subject completion across 12 weeks

## Subject Visualisation Tools

### Course Timeline:

- Shows horizontal links for topics across subjects
- Displays timeline for complete course, showing location of each subject

# Internal Publication

## Book 1: The Unified Theory of Business Strategy

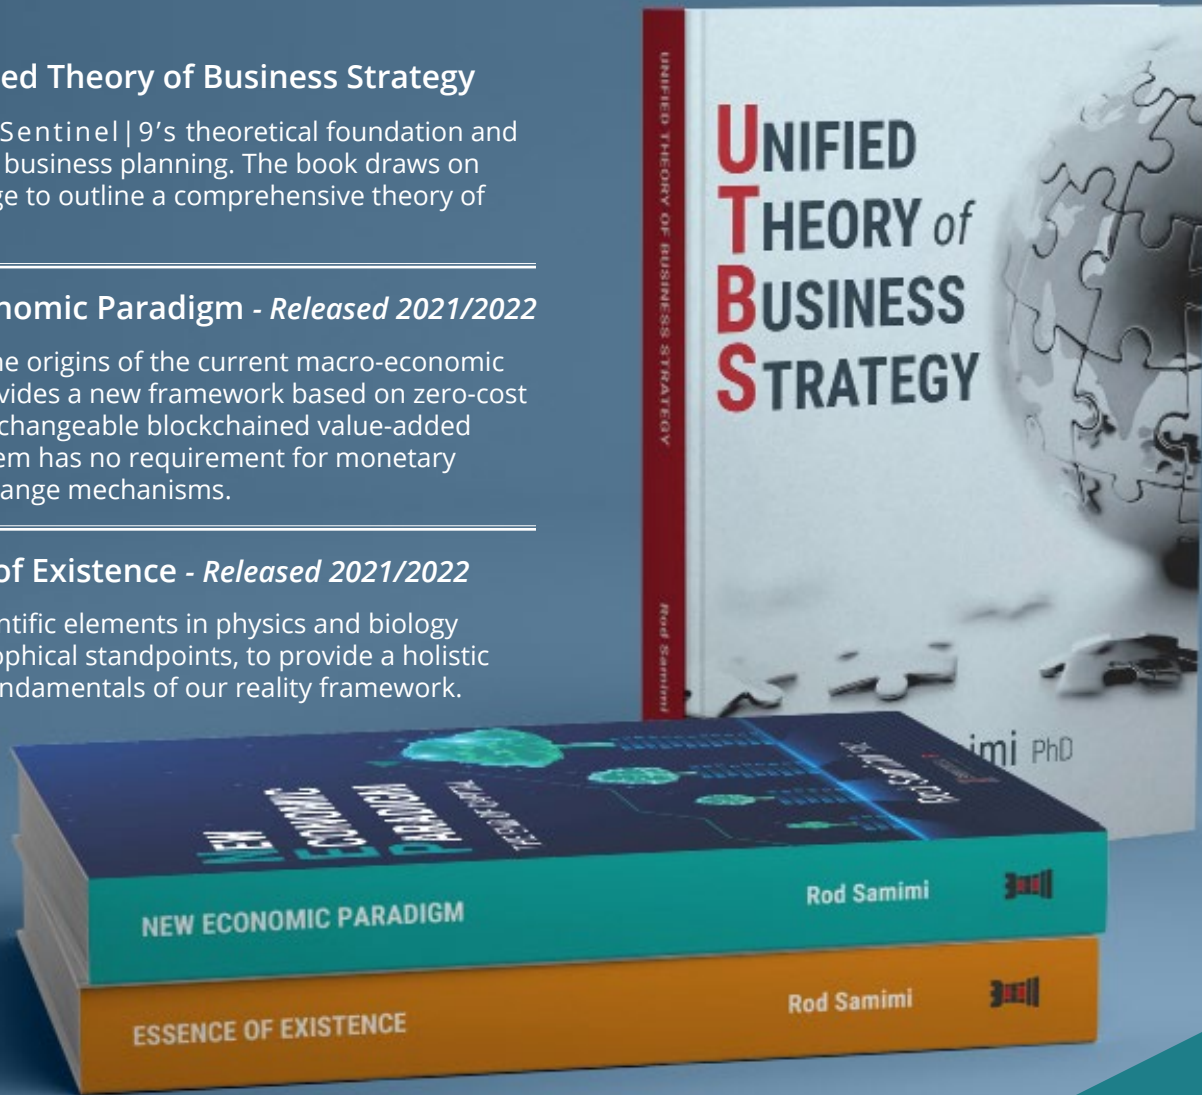

The "UTBS" presents Sentinel|9's theoretical foundation and applies it to strategic business planning. The book draws on 9 bodies of knowledge to outline a comprehensive theory of business strategy.

## Book 2: New Economic Paradigm - Released 2021/2022

The "NEP" explains the origins of the current macro-economic system and then provides a new framework based on zero-cost production and interchangeable blockchained value-added points. The new system has no requirement for monetary capital, trade or exchange mechanisms.

## Book 3: Essence of Existence - Released 2021/2022

The "EoE" brings scientific elements in physics and biology together with philosophical standpoints, to provide a holistic explanation of the fundamentals of our reality framework.
